

Increase your life sales by using this simplified life insurance application process

Agents are discovering how easy it is to use the Drop Ticket app submission process offered by Innovative Insurance Partners through [Superior Mobile Insurance Solutions' GO TICKETSM platform](#). John, an agent in Ohio, recently made a decision to accelerate his efforts to write life insurance. Shortly after that we introduced him to the GO Ticket process and within a few weeks he was hooked! In an email to IIP-LLC, he wrote:

"Today, talking (by phone) with a college friend... he asks, 'John, do you sell life insurance?' I said, 'I do! Do you have 15 minutes?' He did. While (he was) driving to work, I walked him through the GO Ticket process, answered questions and submitted an application for \$500,000 twenty-year term... \$135 a month."

QUICK. EFFICIENT. EASY

It doesn't get any easier than that! A simple question from a friend during a phone call! No face-to-face meeting, no signature...and it took only 15 minutes. **GO TICKETSM** gives you the freedom you need to take an order quickly and then move on to the next sale, resting assured that your business will be processed quickly and efficiently.

"...GoTicket's process is better than micro-wave popcorn and will increase your sales."

Here's how it works.

Agent submits an electronic short form request for life insurance.

SMIS fulfills the Part 1 Insurance Application via telephone interview AND schedules the exams.

Exam requirements and signatures are completed in the field.

In-good-order application packet is ready for submission for underwriting.

GET ON BOARD with the GO Ticket process today!
